

Opti Fat-99

INTRODUCTION

Opti Fat-99 is a rumen inert or stable fat in granulated dry form. It is originated from the physical fractionation of refined, bleached and deodorized palm oil. This product contains high amount of palmitic acid which is the key type of fatty acid that can bypass the rumen and turn into energy source and become butter fat. **Opti Fat-99** rumen bypass fat is a white even granule beads providing high energy in dairy feed ingredients. Unlike others fat source, this unique product does not interfere with rumen fermentation and is highly digestible. This product is used as a source of energy in rumen feed.

BENEFITS

- ▶ Generates maximum rumen bypass
- ▶ No interference to rumen microorganism
- ▶ No hydrogenation and free from trans fatty acid
- ▶ Palatable and free flowing
- ▶ Increase milk production
- ▶ Improve pregnancy rate
- ▶ Reduce incidence of ketosis and fatty liver
- ▶ Reduce the impact of heat stress

INCLUSION RATE

Dairy Cow : 450gm-900gm / Day
Cattle : Blank
Sheep: Blank

PACKING

25Kg Bag

**BIO
CEUTISCH**
